PROFESSIONAL SUMMARY

Electronics & Telecommunications Engineer with 10+ years of hands-on experience designing and delivering full-stack software solutions across web, mobile, and desktop platforms. Deep expertise in Angular (v4–v18), Spring Boot 3.x, Java 21, Flutter/Dart, and MariaDB/MySQL. Proven track record leading cross-functional development teams of up to 6 engineers, architecting Hexagonal, Clean, and Event-Driven systems (CQRS, EDA, DDD), and enforcing code quality standards through SOLID, DRY, KISS, and YAGNI principles. Currently advancing in DevOps & Cloud (AWS, GCP, Kubernetes, Docker). Professional registration SENESCYT: 1007-2016-1777671.

TECHNICAL SKILLS

Frontend	Angular 4 / 14 / 18, Vue 3, React, TypeScript, JavaScript ES6+, HTML5, CSS3, RxJS, NgRx, Webpack, Babel
Backend / API	Spring Boot 3.x, Java 21, Node.js, Express, Python, PHP, Laravel, .NET Core 2/4, RESTful APIs, GraphQL
Mobile	Flutter 3 / Dart 3, Ionic 3, React Native, Android (Java/Kotlin), iOS (via Flutter)
Databases	MariaDB 11, MySQL 8, PostgreSQL, Oracle 12c, SQL Server, Firebase Realtime DB, Redis
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda, CloudFront), GCP, Docker, Kubernetes, CI/CD Pipelines, GitHub Actions
Architecture	Hexagonal (Ports & Adapters), Clean Architecture, CQRS, Event-Driven Architecture (EDA), Microservices, DDD, Monorepo
Engineering	SOLID, DRY, KISS, YAGNI, TDD, BDD, Code Review, Pair Programming, Refactoring
Security	OAuth2, OpenID Connect, JWT, Spring Security 6, ISO/IEC 27001, OWASP Top 10, OWASP Mobile Top 10
Messaging	Apache Kafka, RabbitMQ, Firebase Cloud Messaging (FCM), Firebase Functions, Twilio
Tooling	Git, GitHub, GitLab, SonarQube, Postman, Jira, Figma, n8n, Docker Compose, Kubernetes Helm
Languages	Spanish (Native) English B1 — Advanced technical reading & writing

PROFESSIONAL EXPERIENCE

Senior Software Analyst & Developer — External Consultant |
J2RTECH

Jan 2025 – Present

- Review and validate software architecture applying SOLID, DRY, KISS, and YAGNI principles across multi-disciplinary project teams.
- Conduct architecture audits and code reviews on Spring Boot, Vue 3, and Node.js systems, ensuring quality, security, and long-term maintainability.
- Design and evaluate modern architectural patterns: Hexagonal, Clean Architecture, CQRS, and Event-Driven Architecture (EDA) for microservice-based systems.
- Integrate cloud services across AWS (EC2, S3, Lambda) and GCP, implementing scalable and resilient serverless solutions.
- Implement push notification pipelines using Firebase Cloud Messaging (FCM) and programmatic communications via Twilio API.
- Tech stack: Vue 3, Spring Boot, Python, Node.js, Express, PostgreSQL, MySQL, AWS, GCP, Git.

Senior Web Developer | INITIUM

Dec 2023 – Nov 2025

- Led development of high-performance Single Page Applications (SPA) using Angular 14+ with reusable component architecture, lazy loading, and strict TypeScript typing.
- Provided technical leadership to the frontend team: architecture decisions, code reviews, pair programming, and developer mentoring.
- Reduced Angular bundle size and load times by over 40% through tree-shaking, code splitting, and Ahead-of-Time (AOT) compilation optimization.
- Established unit testing standards with Jest and Karma, achieving consistent test coverage across the codebase.
- Managed AWS deployment pipelines and collaborated on .NET and React modules for cross-team feature delivery.
- Tech stack: Angular 14+, TypeScript, RxJS, AWS, .NET, .NET Core, React, React Native, Git.

Software Analyst & Developer | Top Tech Advisors

Aug 2022 – Jun 2023

- Built and deployed mobile and desktop application workflows that measurably improved user experience and operational efficiency.
- Developed microservices with Spring Boot and Java running on Kubernetes + Docker infrastructure hosted on AWS.
- Implemented Angular 12 front-end modules and Python-based automation scripts for business process optimization.
- Integrated .NET Core 2.0 and C# enterprise components into existing service-oriented architecture.
- Tech stack: Angular 12, Spring Boot, Java, Python, C#, .NET Core 2.0, Kubernetes, Docker, AWS, Git.

Full-Stack Software Developer | Fastline Cia. Ltda.

Sep 2018 – Aug 2022

- Delivered end-to-end frontend and backend development for the core corporate system using Angular 4+ (JavaScript/TypeScript) and Spring Boot (Java).
- Led a 6-person development team: sprint planning, code reviews, release management, and cross-functional coordination with design and product teams.
- Architected and published the 'FastMóvil' mobile application for iOS and Android using Flutter and Ionic 3, handling full app store deployment lifecycle.
- Designed and implemented relational database schemas in MariaDB and MySQL, including stored procedures, query optimization, and indexing strategies.
- Delivered iterative feature releases and production support under Agile methodology (Scrum).
- Tech stack: Angular 4+, Spring Boot, Java, Flutter, Ionic 3, MariaDB, MySQL, AWS, Git.

Software Architect & Full-Stack Developer | J2RTECH (Personal Project)

Jun 2017 – Nov 2023

- Designed, architected, and built INVENTARIX: an electronic invoicing platform compliant with Ecuador's SRI e-invoicing standard, featuring emission, reception, and reporting modules.
- Developed DentalPrime: a dental practice management system covering appointment scheduling, clinical records, billing, and push notification reminders.
- Implemented complete full-stack architecture: Angular + Vue.js frontend, Node.js / Spring Boot backend, PostgreSQL relational database.
- Integrated Firebase Realtime Database for live data sync and Firebase Cloud Messaging (FCM) for cross-platform push notifications.
- Tech stack: Angular, Vue.js, Spring Boot, Node.js, Express, Python, PostgreSQL, Firebase, AWS, GCP, Twilio, Git.

Software Analyst & Developer | Skillsoft

Jul 2023 – Sep 2023

- Maintained, supported, and upgraded the company's internal ERP system, resolving production incidents and reducing technical debt.
- Developed new client-facing features using React, Node.js, and C# deployed on AWS infrastructure.
- Tech stack: React, Node.js, Express, C#, AWS, Git.

Software Developer | Easysoft

Jun 2018 – Aug 2018

- Integrated banking services for Grupo Promérica within the institutional web application, ensuring reliability and compliance with financial data standards.
- Tech stack: AngularJS, Spring Boot, Java, .NET Core 2.0, Oracle 12c, SQL Server, Python, Git.

Software Developer | Universidad Católica de Cuenca

Jul 2017 – Jun 2018

- Contributed to the development of a university ERP system for faculty and student administration, delivering academic management modules.
- Tech stack: AngularJS, PHP, Vue.js, MySQL, Docker, Git.

Software Developer | Cooperativa JEP

Aug 2016 – Jul 2017

- Built the JEP-VIRTUAL web application providing digital financial services to cooperative members.
- Developed frontend with HTML5, CSS3, JavaScript and backend with Spring Framework, Java, and Oracle 12c.
- Tech stack: Spring Framework, Primefaces, Bootsfaces, .NET Framework 4+, Oracle 12c, Java, SVN.

Software Developer | SAPHIENS

Mar 2015 – Jan 2016

- Developed and deployed enterprise software on the Java platform with MySQL database, covering full frontend and backend implementation.
- Coordinated a development team to deliver project milestones on schedule.
- Tech stack: Java, MySQL, HTML5, CSS3, JavaScript.

EDUCATION

Advanced Diploma in DevOps & Cloud — Universidad Internacional de La Rioja (UNIR)

Mar 2026 — In Progress

Advanced Program in DevOps & Cloud Engineering

CERTIFICATIONS & CONTINUOUS LEARNING

Course / Certification	Platform	Date / Hrs.
AI-Driven Development — Introduction to Building with AI	Big School	Oct 2025 · 6h
n8n — Build AI Agents Without Code	Udemy	Oct 2025 · 9h
Complete React, Next.js & TypeScript Projects Course 2025	Udemy	Sep 2025 · 109h
Flutter & Dart — The Complete Guide	Udemy	Jul 2025 · 30h
Cybersecurity Awareness	SoSafe	Jan 2025
Angular 18 — From Zero to Professional	Udemy	Jun 2024 · 14.5h
Adobe Illustrator CC — Graphic Design & Digital Illustration	Udemy	Jun 2024 · 15.5h
SOLID Principles & Clean Code	Udemy	Oct 2023 · 3.5h
Professional Vue 3 Course	Udemy	Jul 2023 · 16h
Database Fundamentals	Platzi	May 2018 · 16h
JavaScript Fundamentals	Platzi	May 2018 · 31h
Responsive Web Design	Platzi	Apr 2018 · 16h
Professional Git & GitHub	Platzi	Apr 2018 · 16h
Vue.js Basic & Professional	Platzi	Mar 2018 · 42h
CEDIA Network Technologies	Red CEDIA	Nov 2015 · 15h
